

ResQr First Aid & CPR Coach Server Edition

#R1000S

Can you save a life? Don't wait for an emergency to happen – get this resource today to be ready tomorrow.

Interactive, talking first aid software that uses Yes/No questions to deliver step-by-step instructions for any major or minor first aid emergency within 12 trauma categories. Powerful source of refresher training to improve skill retention. Or, with the simple touch of the screen, any individual can receive **real-time** training in first aid and basic life support procedures.

A great tool to be used with our First Voice Training Scenario Book when loaded onto a standard PC or laptop! Just 15 minutes of refresher can help you save a life and improve your first aid skills retention. *Repetition = Retention!*

During *lockdown situations* ensures self-sufficiency for the following emergencies that normally 911 would assist with:

- Severe bleeding/gunshot/stabbing wounds
- Drowning, or near-drowning incidents
- AED use and sudden cardiac arrest
- CPR/Unconscious events
- Eye injuries
- Choking emergencies
- Head/Neck/Spine injuries
- Heart/Chest Pain/Stroke emergencies
- Heat/Overexertion emergencies
- Multiple Injury events
- Severe allergic reactions
- Seizure/Diabetic events
- Chemical/Biological/Radiation events

(for a full list of the emergencies visit www.think-safe.com)

Complies with the AHA's Emergency Cardiovascular Care Committee Policy Statement:

"Response to Cardiac Arrest and Selected Life-Threatening Medical Emergencies: The Medical Emergency Response Plan for Schools. A Statement for Healthcare Providers, Policymakers, School Administrators, and Community Leaders."

Also contains Department of Homeland Security guidelines for chemical/biological/radiation threats. The voice instructions cover when and how to use available first aid supplies and provide important reminders about personal protection, scene safety, and obtaining consent.

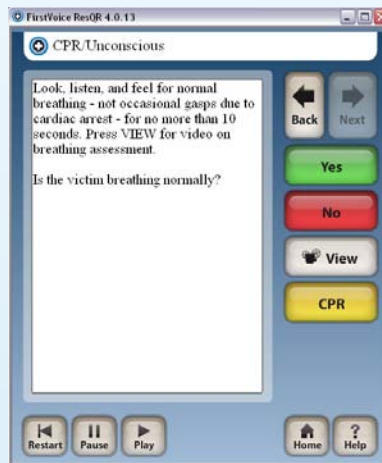

ResQr First Aid & CPR Coach (#R1000S) Server License version 4.0 for Microsoft Windows PC (server edition). This software can be loaded on the server and available to every PC on the network.

The home screen menu is where you choose from one of the twelve starting points.
